

Tuition Fee

The Annual Fees and Charges at Erasmus Primary School are set by the Board of Governors annually and is set on the basis that parents may volunteer their time, providing service to the school each year. The objective of the Family Participation Program is for parents to engage with and become involved in their child's school.

Tuition Fee	2 nd child	3 rd child	4 th child
\$16,993	\$14,444	\$12,745	\$11,045

A family discount applies to Tuition Fees for simultaneous attendance.

For a child not holding Permanent Residency or Australian Citizenship, in some cases, an extra fee element may be required, because we do not receive Government funding for specific visa subclasses. Please refer to the Registrar for further information.

Families commencing after the start of the school year will pay a pro-rata rate on Tuition Fees and Additional Charges, except the Facilities Levy and Books, which are charged at the full amount.

Family Participation Program

The Family Participation Program provides parents an opportunity to engage and become involved in their child's school:

- Participation is a serious commitment and considered part of enrolling at school and paying school fees.
- It is the responsibility of parents to ensure that they fulfil their commitment.
- Parents may choose the work they wish to do from a list of available tasks. The Family Participation Program tasks available are determined by the school's needs and include: Kitchen, Laundry, Table Setting, Maintenance, Gardening and Library.

For details on how the Program operates and expectations of participating parents, please read the Family Participation Program Policy.
